

## Press Release

### **Resonance Advisory Expands Operations with New Partner in Dubai**

*Paris, October 2024* – Resonance Advisory, a leading Project Finance Advisory firm based in Paris, is proud to announce the expansion of its geographical footprint. This expansion is marked by the addition of Aymen Koubaa as a new Partner, based in Dubai – United Arab Emirates, who will be responsible for driving business development in the Middle East, Africa and CEE regions and fostering relationships with both new and existing clients.

Aymen Koubaa brings over 20 years of extensive experience in project finance, including more than 17 years with Société Générale, where he excelled in advising, structuring and financing major projects across the EMEA region. His deep sectorial and technical expertise across Infrastructure, Renewable and Energy Transition assets will further enhance Resonance Advisory's position as a leader in advising the financing of sustainable infrastructure.

"We are thrilled to welcome Aymen to the Resonance Advisory team," said Alexandre Tétaud, Managing Partner. "His outstanding track record in the infrastructure and energy sector as well as his deep knowledge of the GCC region where he was Regional Head for Project Finance within Société Générale in Dubai, align perfectly with our strategic focus on sustainable finance and energy transition. We look forward to the growth and opportunities his leadership will bring."

This strategic partnership underscores Resonance Advisory's commitment to expanding its presence in new markets, particularly in regions undergoing significant energy transitions.

### **About Resonance Advisory**

Resonance Advisory is an independent Project Finance advisory firm providing services to sponsors investing in infrastructure projects across all sectors: transportation, social infrastructures and energies.

The development of efficient and affordable transportation infrastructures as well as a rapid transition to renewable energies are a necessity for a sustainable future. At Resonance Advisory, we care about the social and environmental impact of our projects, and we work with innovative investors supporting the development of sustainable and resilient infrastructures. Resonance Advisory actively contributes to this infrastructure transition.
